Integrated Building Services

CHILL OUT!

*“Cool as a cucumber or
snug as a bug in a rug?”*

**Using the latest
heat-pump technology
we can provide a low
consumption, efficient*
unit mounted on or within
the wall of your home
to give you a guaranteed
cool room in summer
but a warm one in winter.**

There is more...

There is more – because our units include high efficiency filters to remove odours and particles, making them ideal for Asthma and Hayfever sufferers.

They will also reduce humidity, for added comfort.

Additional features include an automatic recall facility, saving your own comfort settings so that you don't have to fiddle with the controls, and their sensitivity to body temperature gives automatic adjustment for comfort at night.

**Our Units are very eco-friendly and light on your pocket. For the same power consumption Heat Pump technology gives you 3 times as much heating or cooling as a conventional system. 3.9kW for the price of 1.3kW.*

**Call Kim Kelly on 01763 261688
for a free no obligation survey.**
